

Meet Your Obstetrician/ Gynecologist

TAMARA HELFER, MD

I strive to give my patients the most up-to-date and comprehensive care possible. When they are in my care I want them to feel they are number one and listened to. I want them to feel confident that their health needs are being met.

Why I chose Health Care

"I was inspired by women around me who were reaching out and making a difference—it did not matter if it was large legislative issues or being a mentor to children. The fact is, each of us can inspire others no matter what we do. Just go for it and do it—be an inspiration."
