

Meet Your Nurse Practitioner

Martie Helmuth, NP

I plan to best serve my patients by listening to their concerns, as well as educating them about their illness and ways to improve their overall wellbeing. I want my patients to leave feeling valued and that their questions and concerns have been addressed.

Why I Became a Medical Provider

"As a young child, I watched nurses care for my father after a minor illness and knew at that moment I wanted to be a nurse. My mom also inspired me to be a nurse, it was a dream that she had for herself, but gave that up to be a stay at home mom. After spending years as a bedside nurse, I realized I wanted to become even more instrumental in providing healthcare."
