

## Meet Your Hematologist/ Oncologist

# Kathleen Naegele, DO

*Christie Clinic is an organization that is filled with people who care and who make a difference in the lives of others every day. The clinic is committed to the patients. Being part of this mission is a huge blessing.*

### Why I chose Hematology/Oncology

"Oncology, in particular, is a field that demands a compassionate physician and one that advocates for their patient and their family. There is a unique bond that occurs between an oncologist and their patient. This bond is what drives me to advocate for my patients every day. In addition, as new treatment options for oncology and hematology diseases become available, physicians in this field need to continually educate themselves to keep up with the latest advances in medicine. Although the amount of new treatment options can seem overwhelming at times, the changes are exciting and invigorating as well."
